

Table 2 Extrapolated tree species hyperdominance results for African, Amazonian, Southeast Asian tropical forests at the regional scale

	Number of hyperdominants	Total species	Hyperdominant percentage
Africa	104 [101, 107]	4,638 [4,511, 4,764]	2.23
Amazonia	299 [295, 304]	13,826 [13,615, 14,036]	2.16
Southeast Asia	278 [268, 289]	11,963 [11,451, 12,475]	2.32
Total^a	681 [664, 700]	30,427 [29,577, 31,275]	2.24
